REBUILDING SERVICE

FILAMENT MATERIAL	PRICE
Tungsten	\$160.00
Iridium	180.00

Be sure to obtain an RMA # prior to shipment to Duniway Stockroom

Before

After

Duniway Stockroom Corp. rebuilds most makes and models of nude ion gauges. We offer a flat rebuilding rate for both tungsten and iridium filament gauges. Prices assume that ceramic-to-metal seals are leak tight.

We will:

- 1) Leak check the flange and header assembly.
- 2) Remove the filament, grid cage, collector shield and wire.
- 3) Clean the header thoroughly.
- 4) Install new parts; filament, grid cage, collector wire and original shield.

See Page 116 for Ion Gauge Cables
