

# MECHANICAL PUMPS

## Rebuilding Services

Duniway Stockroom Corporation performs repair and rebuilding services for a wide variety of mechanical pumps. All pumps are rebuilt at our location in Mountain View, CA and each leaves with our standard 90-day warranty. Pumps taken in for a complete rebuild undergo the following process:

- Disassembly, inspection and cleaning.
- Total replacement of all seals, gaskets, springs, o-rings and valves. (Minor kit)
- All other parts replaced as required, with customer approval, for an extra charge.
- Two or more changes of hydrocarbon oil.
- Complete test run for 24 hours.
- Thorough draining and cleaning.
- Exterior painting and a final tagging of rebuild information.
- For a small charge, standard or chemical series pumps can be prepped for "Fomblin" (inert fluid).

*Be sure to obtain an RMA # and a Hazmat form prior to shipment to Duniway Stockroom Corp.*
