

POSITION STATEMENT ON SEC RULE FOR DISCLOSING USE OF CONFLICT MINERALS

(Dodd-Frank Wall Street Reform and Customer Protection Act, Section 1502)

Duniway Stockroom Corp., as a significant, worldwide supplier of vacuum equipment and supplies, is concerned about the quality and legitimacy of the sources of its products and the materials used in their manufacture.

Although many of the products in our line are re-branded versions of standard industry products, we manufacture or contract for manufacture two of our main product families, specifically Ion Pumps/Controls and Vacuum Gauge Control/Displays. For those two product lines, we are committed to complying with the SEC ruling.

Since Duniway Stockroom Corp. is a privately held company, no direct reporting to the SEC is required. However, we will have the status of Conflict Minerals in our products available to our customers upon request.
