

Duniway Stockroom Corporation performs repair and rebuilding services for a wide variety of mechanical pumps. All pumps are rebuilt at our location in Fremont, CA and each leaves with our one year warranty against defective parts and workmanship.. Pumps taken in for a complete rebuild undergo the following process:

- Disassembly, inspection and cleaning.
- Total replacement of all seals, gaskets, springs, o-rings and valves. (Minor kit)
- All other parts replaced as required, with customer approval, for an extra charge.
- Two or more changes of hydrocarbon oil.
- Complete test run for 24 hours.
- Thorough draining and cleaning.
- Exterior painting and a final tagging of rebuild information.
- For an additional charge, standard or chemical series pumps can be prepped for inert fluid.

PLEASE NOTE: Prices assume pumps require only minor rebuild. Upon inspection, we will notify customer if major rebuild is needed and quote accordingly.

Be sure to obtain an RMA # and a Hazmat form prior to shipment to Duniway Stockroom Corp.
